Giving Thanks - Thanksgiving Office Closure

As the holiday season approaches, we would like to reflect on all that we are thankful for as a firm, most importantly our amazing team members! To show our tremendous gratitude, Gray, Gray & Gray is giving the gift of MORE this Thanksgiving holiday. More time with family and friends. More time for hobbies and other things we enjoy outside of work. More time to relax and recharge. As a reminder, Gray, Gray & Gray's office will be closed for the entire week of Thanksgiving (November 21-25, 2022), giving our team some well-deserved time off to disconnect and enjoy the holiday. We wish our clients and friends of the firm a restful and pleasant Thanksgiving holiday.

Team Member Spotlight: Bill Constantopoulos

Bill Constantopoulos is on a mission. He truly believes that Sage Intacct is "the best reporting system for mid-market companies available today." And he is determined to win over doubters and disbelievers.

Bill's confidence in Sage Intacct is based in real-life experience - he has completed more than 100 implementations in the past seven years, for organizations in a wide array of industries and range of sizes. All had a common need for an accounting and financial reporting software platform that was powerful enough to compile and deliver the diverse scope of information necessary to support and drive the decisions that lead to growth and profitability.

bconstantopoulos@gggllp.com

"I think the 'sweet spot' for Sage Intacct is an organization with revenues in the \$10 million to \$250 million window," says Bill. "That's the range where real-time access to accurate and

detailed information and data analysis is critical. No other system delivers that like Sage Intacct." Bill's implementations have run the gamut from non-profit organizations, healthcare companies, private equity firms, energy businesses, to collegiate athletic conferences. "Anyone who will benefit from having the right information at the right time should learn more about Sage Intacct."

Bill also cites Sage Intacct's open API architecture as a huge advantage over legacy systems and even other accounting software platforms. "Because the architecture is designed from the ground up to be cloud based, Sage Intacct can be fully integrated with virtually any other business operations software system to build a holistic back office technology stack."

An early start in technology was perhaps a harbinger of Bill's future. He helped set up the computer system for his father's construction business before heading off to the University of Massachusetts-Boston to earn an accounting degree. His first full-time job after graduation was with the Federal Reserve Bank of Boston where Bill worked with multiple proprietary accounting and financial reporting systems and learned valuable lessons in "how the monetary system in this country runs."

Bill then joined RSM's Sage Intacct team, working on client assessments, system design and implementation on a variety of businesses. He brought his deep appreciation for - and experience with - Sage Intacct to Gray, Gray & Gray in 2020 and immediately made a big impact for our clients, leading successful implementations that overcame the difficult challenges posed by the global pandemic.

When he is not equipping clients with the powerful tools of Sage Intacct, Bill will most likely be found deep in the woods or on a mountain trail on an immersive hike over the most challenging terrain. He is also a diehard NFL football fan, and is at home in the weight room or basketball court at the local Y. Bill and his fiancé are currently planning a post-pandemic wedding.
