Gray, Gray & Gray Celebrates 80th Anniversary

2025 marks the 80th anniversary of Gray, Gray & Gray! Since 1945, our firm has evolved into a leading independent accounting and advisory firm while maintaining our commitment to the industry and providing remarkable service to our clients. As we reflect on 80 years of delivering more, we are grateful to our clients and team members.

"From a three-person post-war start up, we have grown steadily and deliberately over the years with the intention of maintaining our identity as an

independently operated, entrepreneurial firm. Whether it was through organic growth by adding new clients or expanding with our existing clients, our path has always been forward and upward. Throughout our history we have been fortunate to have team members of exceptional skill and dedication; and clients who placed their trust and confidence in our firm," says James DeLeo, a 35-year veteran of Gray, Gray & Gray who serves as the firm's Leading Partner.

API Management in Successful Systems Integration

Successful systems integration has become the cornerstone of digital transformation initiatives. At the heart of these integration efforts lies API management, a critical discipline that determines the long-term success and sustainability of connected systems. After helping multiple enterprises navigate complex integration challenges, I’ve observed that organizations often underestimate the strategic importance of robust API management in their integration journey.

Thank You to Our Incredible 2025 Interns

THANK YOU... 
TO OUR 2025 INTERNS!

Our interns' efforts and commitment to learning made a mark on this year's busy season and our firm as a whole. Each of them brought their best each and every day over the past several months, as they immersed themselves in the world of accounting, gaining real-life experience that they can carry with them throughout their career.

Each year, we become more and more grateful for our internship program and strive to offer an unparalleled experience for the group of students/recent graduates that become a part of the G3 team. We wish them all endless growth and opportunities in their future endeavors.
