2026 Retirement Contribution Limits Raised

The IRS has announced significant increases to contribution limits for 401(k) plans and other retirement savings vehicles for 2026, offering Americans more opportunities to save for the future. The contribution limit for employees participating in 401(k), 403(b), and most 457 plans has increased to \$24,500, with catch-up contributions for those 50+ increasing to \$8,000.
